Conference Themes

The following conference themes are relevant for all arts educators. We welcome submissions from across the arts disciplines inclusive of music, visual arts, architecture, dance, literature, drama, film, heritage and multi-media.

Themes

1. Directions and innovations for arts education and lifelong learning.
2. Reviving cultural traditions: Challenges and opportunities for the environment, culture and arts education
3. The increasing interplay between technology, multimedia, interactive media and social media within arts education .
4. Creative industries and arts education and sustainable development (urbanism, economy, climate, environmental, cultural, wellbeing, education).
5. The future of the arts in shaping and responding to cultural and political trends.

6. The role of arts education and arts in confronting discrimination, extremism and violence
7. Arts education and wellbeing across the generations
8. The role of museums and historical sites/events/items in sustaining arts education.
9. Preserving and transforming heritage: intersections between art, architecture and archaeology.
10. Development of literary criticism and linguistics and keep up with the art of modern creative text.
